### Commitments of co-publishing organisations

It should be noted that the organisations co-publishing this resource might not currently practice all of the recommendations proposed within it.

Co-publishing the resource provides an indication of the organisations' commitment to help their staff become increasingly aware of the issues relating to violence and WASH, and that they will continue to work to improve their organisation-wide commitment, policies, strategies, plans and programming over time to reduce vulnerabilities to violence related to WASH wherever it is realistically possible.
